Nama : Muhammad Ikrom

Instansi : STT Terpadu Nurul Fikri

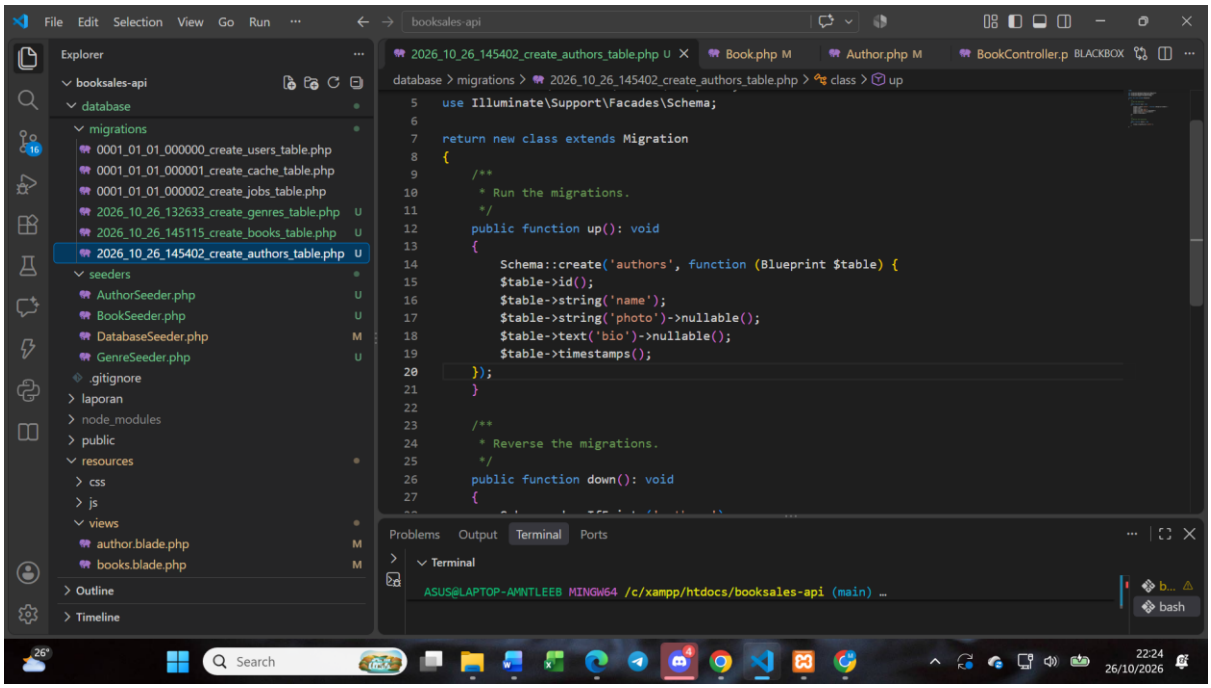

1. Membuat migration author, untuk book kurang lebih sama, tinggal mengganti Namanya saja

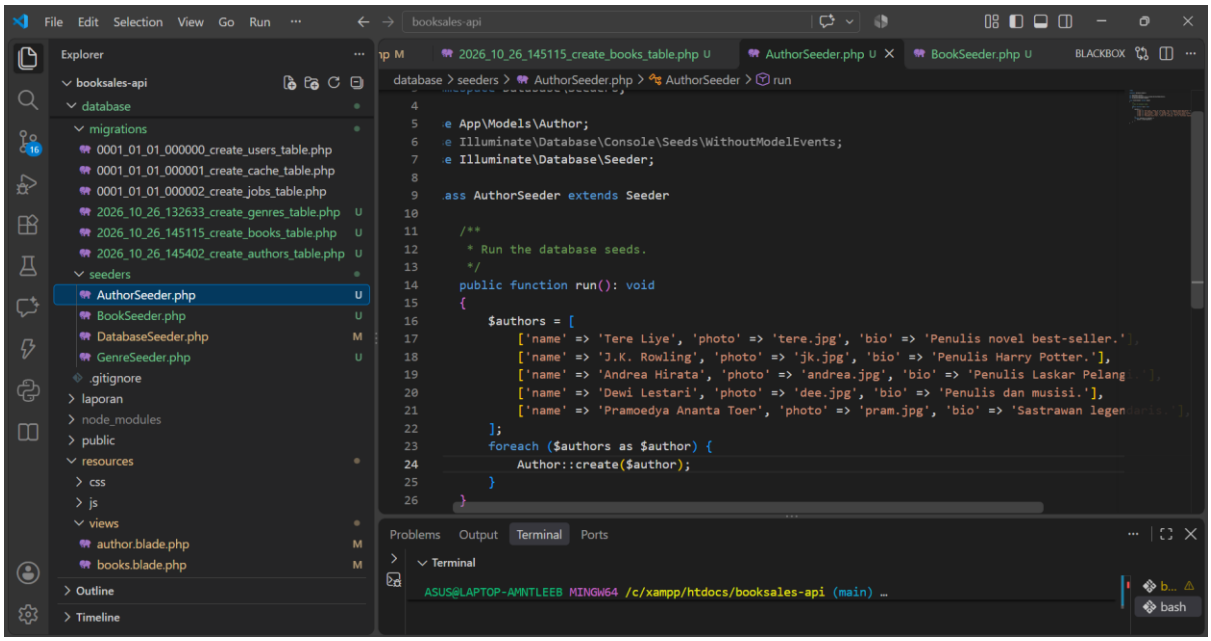

2. Membuat table di book

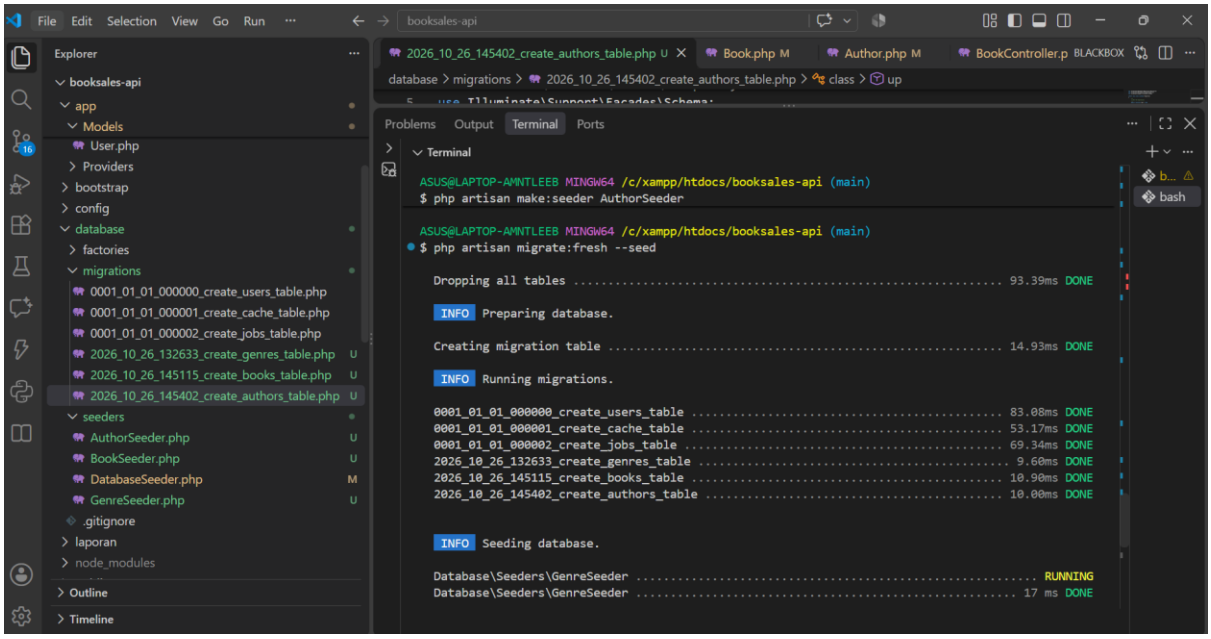

3. Membuat table di author

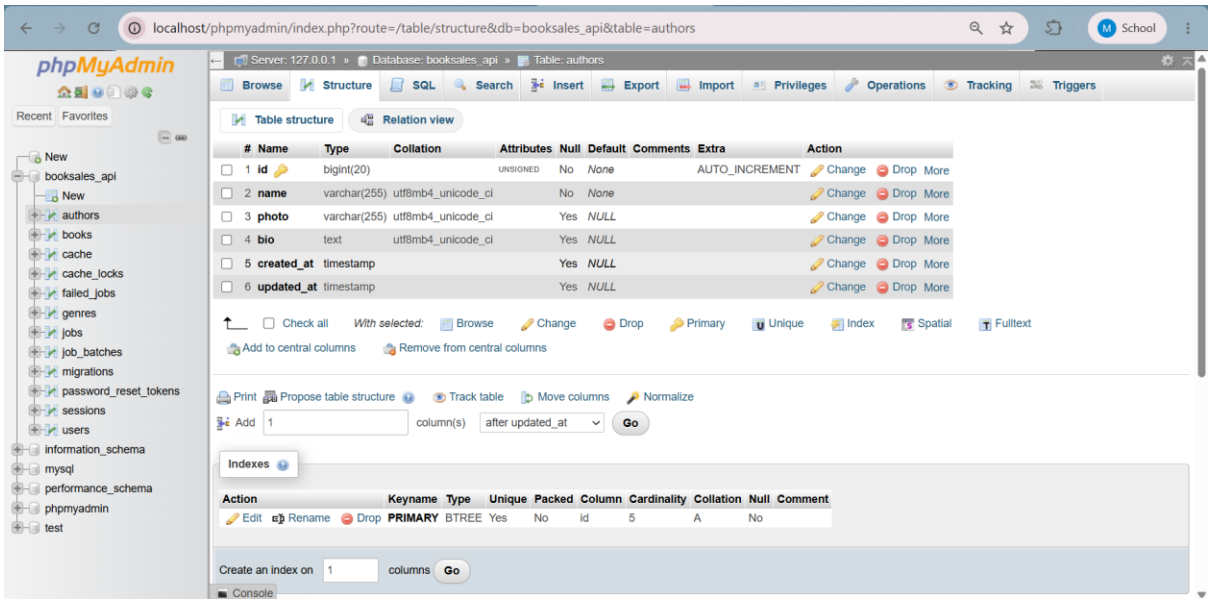

4. Menambahkan 5 data dummy

5. Ketika sudah terisi jalankan perintah **php artisan migrate:fresh –seed** untuk mereset database, membuat tabel, sekaligus memasukkan data dummy secara otomatis

6. Hasilnya database author dan books sudah terbuat otomatis

7. Mengatur file model, controller, routing, dan view
