Learning to use Post...
/onboard I want to learn how to use Postman.
build against your API even before it's ready.
Since you're just 44 minutes in, I'd suggest starting with step 1 right now — just send that "Get data" request and see what comes back.
What would you like to do next?
Send the Get data request
Create an environment with variables
Add a test to my request
Explore a public API
Describe what you need. Press @ for context, / for Skills.
